

## **Emigre Fonts**

### **Euro Symbol**

Starting with the 1999 releases, Emigre fonts will include the Euro symbol in the option-shift-2 key position.

Emigre will update existing fonts with the Euro symbol when updating to the OpenType format.

In the meantime, Emigre has prepared this special font containing 47 Euro symbols for it's customers.

For the latest information about the Emigre's Euro support, see:

[www.emigre.com/Euro.html](http://www.emigre.com/Euro.html)

### **Registration**

Registered owners receive free technical support for 60 days. You are automatically registered when purchasing fonts directly from Emigre. When purchasing from a dealer, send us the registration form within 30 days of purchase, or register your Emigre fonts online at: <http://www.emigre.com/fontreg>

Please inform us if you have a change of address so that we may keep you current on any upgrades. Technical support line: (916) 451-4344.

### **Font Installation**

Before installation, it is best to lock master disks to ensure their safety. Never attempt to alter the names of any font files. If you have a font management utility installed, please refer to its user's guide to determine if the instructions given here apply.

Macintosh PostScript, Macintosh TrueType and Windows formats are sold separately.

## Emigre Fonts User License

### You agree to the following user licensing terms:

1. This Emigre Fonts package is licensed for use on a single printer or output device in conjunction with a maximum of 5 CPUs or workstations.
2. A multi-device site license upgrade must be purchased for multiple device use according to the multi-device license schedule shown below. Each location and/or entity must purchase a separate license, starting with the first device. An output device is any printer, such as a Linotronic rasterizer, laser printer, or dot-matrix printer, any video display terminal or any other device where display is generated from the font software outlines, such as with the use of Adobe Type Manager, if the font is to be used primarily for display terminals that generate the output, as in a multimedia CD.
3. The contents of this Emigre Fonts package may not be copied or duplicated in any form except for backup purposes. Emigre Fonts software or documentation may not be rented, leased, sublicensed or lent to another person or entity.
4. Packages may not be returned or exchanged unless defective. Defective packages shall be replaced by the same package if accompanied with purchase receipt and Emigre is notified within one week of purchase.
5. Any software, EPS file, illustration, or anything derived from Emigre Fonts software must be used according to the original licensing terms. This means, for example, that any modified Emigre Font, or any outline information derived from any Emigre Font is still licensed for the same number of devices as the original and may not be sublicensed, given away, or sold without written permission from Emigre, Inc. Emigre is responsible for technical support of its officially distributed fonts only. Emigre is not responsible for modified and / or regenerated software. This license does not permit any form of embedding or encrypting of Emigre Fonts in digital documents or any other form. If embedding of Emigre Fonts is desired, the user must purchase an additional license from Emigre based upon usage. If an embedding license is desired, the licensee must represent and warrant that licensee's encryption of the embedded Emigre's Fonts is secure enough to prevent any access or use by anyone.
6. The user of this Emigre Fonts software agrees to credit Emigre as the trademark and copyright owner of the Emigre Fonts and list the font names, wherever and whenever design, production, or any other credits are shown.
7. Any violation by you of this agreement shall cause this license to be terminated. In the event of termination, and without limiting any other remedies which may be available against you, you must immediately return the font package to Emigre and certify that no copy remains in your, or anyone else's possession.
8. Emigre makes no warranties express or implied as to merchantability, fitness for a particular purpose, or otherwise. Without limiting the forgoing, Emigre shall in no event be liable for any direct, indirect, consequential, or incidental damages, including damages from loss of business profits, business interruption, loss of business information, arising out of the use or inability to use the product.

### Multi-device Upgrades

Multi-device site license upgrades are priced according to the schedule shown below. Each location and/or entity must purchase a separate license, starting with the first device. The following is cumulative:

2nd printer with up to 10 CPUs: add 50 percent of original price.

3rd to 10th printer with 11 to 50 CPUs: add 20 percent for each printer or per5 CPUs.

11th to 25th printer with 51 to 125 CPUs: add 15 percent for each printer or per5 CPUs.

26th to 50th printer with 126 to 250 CPUs: add 10 percent for each printer or per5 CPUs.

51st printer and over with 251 CPUs and over: add 5 percent for each printer or per5 CPUs.

If your usage exceeds the number of CPUs for a given output device category, you must purchase the upgrade with the applicable number of CPUs.

Each location and/or entity must purchase a separate license, starting with the first device. The upgrade price is calculated as a percentage of the original price of the package.

To help keep your font licensing current, we've provided a convenient form at: <http://www.emigre.com/FontAudit.html>

## Installation Instructions

**Extracting:** Before installing, you will need to extract (or uncompress) any files with the “.sea” suffix.

File names ending with “.sea” indicate files which are provided in a self-extracting archive format. To begin self-extraction, simply “open” or double-click the file’s icon. A dialog box will appear asking you where you would like the uncompressed file(s). Select “Drive” and navigate to the appropriate folder or location; then click on the “Extract” button.

### Macintosh PostScript Type 1 installation: Drag the icons onto the System Folder.

**PostScript Fonts:** PostScript Type 1 outline fonts are used for printing and for screen display with Adobe Type Manager (ATM). To install PostScript Type 1 fonts, select and drag both the PostScript and ScreenFont icons directly onto the System Folder; not the System file. (The Macintosh will tell you that it is going to put these files in their proper places.) In order to use the PostScript fonts, you must also install the corresponding screen fonts.

**Screen Fonts:** Also called bitmap fonts, screen fonts are used for screen display and dot-matrix printing. Drag the screen fonts icon directly onto the System Folder.

**AFM Files:** Some PostScript font packages also include AFM files which contain font metrics and kerning information. AFM files are generally not necessary for Macintosh font operation; consult your application manual for installation instructions.

### Macintosh TrueType and Screen Fonts installation:

**Drag the icons onto the System Folder.**

(This installation is used for both screen fonts, as well as for TrueType fonts.)

**TrueType Fonts:** This is Apple’s outline font technology which was introduced with System 7. TrueType outline fonts are used for both screen display and printer output. Install the TrueType fonts by dragging the suitcase icon directly onto the System Folder; not the System file. (The Macintosh will tell you that it is going to put these files in their proper places.) Each Emigre TrueType suitcase contains both screen fonts and TrueType outline fonts, so installation is accomplished in one step.
